

We are a leading consulting company offering comprehensive scientific services with offices in Stade (DE), Heidelberg (DE) and Valencia (ES). We assist our clients in the registration of agrochemicals, biopesticides, biocides, human pharmaceuticals, feed additives, chemicals (REACH) and nanomaterials in Europe and overseas. Our aim is to provide a smooth and successful registration process to ensure safety of these products for the environment and human health.

We are looking for a

Regulatory Affairs Professional/ Scientific Consultant Toxicology (Full-Time)

Your tasks within a project team

- ▶ Prepare dossiers for the authorization of agrochemicals, biocides and other chemicals within the European Union according to current regulations
- ▶ Prepare safety evaluations of active substances and products and human exposure assessments according to EU and national requirements
- ▶ Review and evaluate toxicological data, including published literature
- ▶ Prepare proposals for classification and labelling according to GHS
- ▶ Participate in international conferences and workshops
- ▶ Manage projects with national and international clients
- ▶ Further strengthen our toxicology department at GAB together with experienced colleagues

Your skills and qualifications

- ▶ Degree (B.Sc., M.Sc., Dr.rer.nat. or Ph.D.) in chemistry, biology, food or agricultural sciences or related disciplines
- ▶ Interest and basic knowledge in chemical safety and human health
- ▶ Experience in biocides would be beneficial
- ▶ Excellent communication skills
- ▶ Fluency in English; German, French or another additional European language would be beneficial
- ▶ Careful, reliable and swift working style
- ▶ Self-motivated, flexible, open and well organised personality; able to work under pressure
- ▶ Eager to learn and establish a good working relationship with colleagues, clients and regulatory authorities

Our offer to you

- ▶ Opportunity to work within a friendly and supportive environment of highly motivated professionals
- ▶ Teaching program and training on the job
- ▶ Working environment where excellence is recognised and encouraged
- ▶ Interdisciplinary and international multi-lingual company
- ▶ Competitive salary
