

Our mandator is the global leader in the pharmaceutical Biotech Industry and develops innovative and best in class agents in the area of Oncology/Hematology, Immunology, Nephrology, Osteoporosis and many more.

For the Department of Comparative Biology and Safety Sciences we are searching as soon as possible for a dedicated and highly motivated

Project Toxicologist (m/f)

Standort: Greater Munich area

Kennziffer: 24630

Your Responsibilities

- Developing in-depth understanding of and strategies for characterising and managing target liabilities
- Developing and implementing toxicology strategies for early through lead optimization and candidate selection
- Designing and implementing exploratory and regulatory toxicology studies
- Managing and analyzing a wide range of literature and datasets
- Working cross-functionally to contribute to program development by acting as a representative for the company's Area
- Liaise within the Area of the company to leverage internal subject matter expertise in pre-/non-clinical safety assessment
- Participate in activities related to the application (CTA/IND) and market authorization
- Working in multi-disciplinary international teams

Your Qualification

- Degree with at least three years of relevant scientific experience (Doctorate/Veterinary or PhD) including toxicology (ideally a certification or master's degree)
- Experience in the post-doctoral research in the discipline of interest/relevance (e.g. molecular/cellular biology, immunology, oncology or pathology)
- Experience (Academic, CRO and/or industry) in pre-/non-clinical drug development demonstrating a sustained record of achievement and the ability to understand translational biology
- Excellent communication skills (German and English)
- Experience resolving scientific problems through the establishment of novel scientific approaches
- Ability to critically evaluate, interpret and integrate large datasets and literature
- Understanding of cutting-edge science and technology employed to enhance the investigation of drug candidate safety liabilities
- Experience interacting with regulatory agencies
- Ability to work independently, build productive cross-functional collaborations, multi-task and prioritize
- Proven learning agility, resilience and teamwork skills
- Interest and ability to serve as a subject matter expert in a specific discipline

Seit 2003 vermittelt Optares Medical erfolgreich Fach- und Führungskräfte an Unternehmen der pharmazeutischen, biotechnologischen und medizintechnischen Industrie. Dabei profitieren Sie als Kandidat durch unsere langjährige Branchenexpertise und unser weit reichendes Netzwerk zu den jeweiligen Entscheidungsträgern. Wir ermöglichen Ihnen somit den Zugang zu passgenauen Positionen inklusive echten Herausforderungen und entsprechenden Weiterentwicklungsmöglichkeiten.

Die professionelle, diskrete und transparente Betreuung unserer Kandidaten während des gesamten Bewerbungsprozesses steht dabei für uns im Mittelpunkt.
